Republic of Ireland

VigiTrust

VigiTrust is an award-winning provider of Integrated Risk management (IRM) SaaS solutions to clients in 120 countries in the hospitality, retail, transportation, higher education, government, healthcare, and eCommerce industries. VigiTrust solutions validate and maintain compliance with regulatory frameworks and regulations on data privacy, information governance, and international taxation.

VigiOne

VigiOne enables organizations to achieve and maintain compliance with legal, industrial and security standards and frameworks, including data protection, data transfer and retention, Protected Health Information (PHI) and Payment Card Industry Data Security Standard (PCI DSS), ISO 27001 compliance programs, and corporate governance. VigiTrust helps global Fortune 500 customers comply with US Federal regulations, State regulations, and European directives.

Mathieu Gorge - Founder & CEO of VigiTrust

Mathieu is the CEO and Founder of VigiTrust, providing Integrated Risk Management (IRM) SaaS solutions to clients in 120 countries across various industries. Mathieu helps CEOs, CXOs, and Boards of directors handle cyber accountability challenges through good cyber hygiene and proactive cybersecurity

Dalla Verità & Partners, founded by Gianluca Maria Dalla Verità, is a team of experienced professionals who provides services to international Groups and high-net-worth individuals (HNWI). The team combines a large expertise with in-depth knowledge of corporate law and international taxation.

The firm is young and innovative and matches legal compliances with the demands of global economics. Its staff regularly attend international events, forums and studies.

An extensive worldwide network of fellow professionals and organizations ensures a friendly, tailored approach: this not only makes Dalla Verità & Partners the ideal investment advisor, but also an invaluable partner for the optimisation and restructuring of existing entities from the legal, tax and financial perspectives.

Gianluca Maria Dalla Verità, a chartered public accountant, auditor, TEP and published writer, is the founding member of Dalla Verità & Partners, with branches in Bologna and London, specialized in advisory, M&A (advisor and originator) and corporate law. He has experience in cross-border investments and specializes in corporate law, with EU taxation and PHI. He has a long standing and successful track record in the Far East and in African countries.

Gianluca Maria's interest in new economic trends and habits for consumers is characterized by an insatiable curiosity about the deep motivations and behaviours that underlie macroeconomic phenomena. He is equally at ease both exchanging ideas with common people and scholars and leading entrepreneurs. His desire to constantly update himself and his methodology, his strategic analyses of future events, insights that he enjoys sharing with clients and friends alike in open conversations, addresses the latest security and compliance regulations and newest security threats. He is a Featured Forbesbooks author, innovator, and in-demand speaker.

Mathieu is a multi-award winning CEO and an established authority on IT security, information governance and risk management, with more than 20 years international experience. He is in high demand as a speaker at international security conferences, such as RSA, ISSA and ISACA. Mathieu's areas of expertise include PCI DSS, GDPR, CCPA, HIPAA, VRM and ISO 27001. Mathieu has been involved in extensive security research and collaborative programs. He regularly moderates and speaks at security events organized by ISACA, ISSA (Global Web Conference Committee). He has completed extended research work in the areas of risk assessment &

management, payment card security (as part of Special Interest Groups of the PCI Council), secure printing, data storage & archiving.

Mathieu also served as the Chairman of Infosecurity Ireland and acted as an Official Reviewer for ANSI. He is the founder of the PCI DSS European Roadshow, running since 2011. Mathieu is also the Chairman of the VigiTrust Global Advisory Board, a noncommercial information security and risk management think tank for CxOs, researchers, law enforcement and security, compliance and risk management experts with 150+ international members.

Mathieu regularly writes for Computerweekly, TechTarget, Searchsecurity.com, ISACA, Searchstorage.com, Computer Fraud & Security, SC Magazine, ISSA Journal and is a contributor to many security and compliance blogs and newsletters.

The Cyber Elephant in the Boardroom

The Cyber Elephant in the Boardroom is the new book written by Mathieu Gorge. The Cyber Elephant in the Boardroom delivers strategies and best practices for dealing with today's cybersecurity issues and provides guidance for the next decade of risks. As companies begin to adjust to mounting security issues, senior leadership teams and CXOs will require simple ways of understanding and addressing these threats. The 5 Pillars of Security Framework™ is the perfect foundational tool. The 5 Pillars of Security Framework™ transcends industries and can be applied to organizations of any size and type. They are timeless in nature. If

you or your business need future-proof cyber-security strategies, The Cyber Elephant in the Boardroom is an indispensable reference for helping key stakeholders to understand their roles.

The 5 Pillars of Security Framework™

The award-winning 5 Pillars of Security Framework is a simple, effective, industry agnostic, timeless methodology allowing enterprises and small businesses to map cybersecurity risks, implement a cybersecurity strategy, and demonstrate cyber accountability to regulators, governing bodies, and law enforcement agencies.
