VIGITRUST

Global Advisory Board

Working with external consultants and tools

Organisations want assurance

| Internal frameworks	External frameworks	Is infrastructure vulnerable?
Is the SOC functioning properly?	Spend -V- value	Priorities correct?

Reconnecting security activities & governance

Strengthen the security governance framework → Define what should happen → Specify who is responsible

Evidence activity, outputs and outcomes → Embed the process → Gather evidence routinely

Use technology → Dashboards, e.g. PowerBI → Workflow tools, e.g. Nexus Assurance

VIGIT

Global Advisory Board

External consultants making a difference

Provide assurance, and get behind the need for assurance

Help organisations to embed the process of gaining assurance

Keep organisations focused on what matters most
